Ryslew of the Portsmouth market, for the week ending July 1, 1850.

GENERAL REMARKS, STATE OF TRADE, &C. -Since our last issue every department of business has continued exceedingly dull, and our reports will embrace but few transactions, and these of small account.

This state of things is attributable in part to scarcity of money, and low stage of water. The weather has been showery, giving new life to vegetation, and the crops are looking

The following transactions are only noted. FLOUR .- The views of buyers and sellers have been so far apart that but little flour has changed hands during the week. Cottage Mills flour and other favorite brands were offered at \$5,00 during the week with mles for want of retailer only. There were also small shipments to Furnaces. Sales of Com at 50c. Oats 30c. New Wheat will soon make its appearance,

Bacon .- Sales of clear sides by cask 61c. At retail, shoulders are held at 41 to 5c; sides 61 to 7c, and hams 8 to 10c. Lard 61c by the bbl.

WHISKEY .- The high price of corn still keeps up the price of Whiskey. Sales at 21

COFFEE. - The Coffee market exhibits more firmness, and the best Coffee is held at 11 cents. Sales of Coffee at 10 to 11 as in qual-

SUGAR AND MOLASSES .- These stuples maintain their prices as current last week. Sales of strictly prime Sugar at 64 by hhd and 64 by bbl. Molasses is held at 33c with but little anxiety to sell.

CHEESE,-Good supply. 57 to 6c wholesale.

FAMILY MARKETING .- The offerings at Market house have been full during the past week. The supply of fresh beef and meats was unusually large. Of vegetables, there was good supply. Potatoes, Green Peas, Radishes, Onions, Lettuce, &cc. Also, Buttor, Honey, and sundry other articles, both of luxury and necessity, at low rates.

> Foreign Items. From the Evening Post.

The Historic Times says the fact cannot he concealed, that a new struggle between anarchy and order is at hand in Europe.

Many of the English newspapers seem to take it for granted that Cuba has already been captured by the Americans, and abuse us accordingly. Sixty-two thousand pounds have been

subscribed towards the projected Industrial Exhibition of 1851. The health of the city of London remains

A bottle of Egyptian perfume, 2,000 years old, is preserved at the Alnwick Museum, and still retains its odor,

The Liverpool Aviary has been burned to the ground by an accident, from the display of fire works. Several rare birds were scorched to death. Railway shares in England are ogain

advancing in price. Numerous bets have been lost on the

speed of the steamer Viceroy. American plants were the principal attraction at the recent exhibition of the Bo-

tanical Society, in Regent's Park. The change in the electoral law of France will disfranchise about four millions of voters, but no one can tell whether these will be the socialists or their opponents. The law itself is so badly drawn es to make it difficult of explanation or ap-

plication. Mr. Dupin, the President of the Assembly, has said it will require another law to tell what it means. Lord Palmerston recently stated in debate, that "the tribunals in the United

States were more open to obtain justice and right than the tribunals in some states of Europe." He might have said in any states of Europe.

The mail bags brought to this country

by the Viceroy, were put on board of her by the Sheriff of Galway, in person. The Emperor Faustin's coronation mantle has been completed for him by a Parisian tailor, at a cost of \$10,000.

It is again reported that Lamartine is nbout to proceed to Smyrna, to take posses-sion of a tract of land he has obtained from the Sultan on favorable terms.

The Emperor of Austria has had another narrow escape from death. Being at the port of Trieste, attending some fleet evolutions, a cannon heavily shotted was fired, and a ball passed very near his person.

The Lord Chancellor of England, Cottenham, has been created un Earl. The Datch government has established an embassy to Normey and Sweden. The minister at Copenhagen is accredited only to Denmark, with a reduction of salary. The incumbent is the Chevalier Martini, formerly in this country and well known

to many of our roaders. Lucien Bonaparte is at Berlin. Thaddens of Warsaw was written by the late Jane Porter, when she was only

twenty years of age.

The authorities of Brussels have forbidden the sale of fly paper, considering it a dangerous article to others than flies.

A medical man, at Chatham, has published a statement, that he has known several severe cases of cholera produced by

eating American cheese. The Madonna, at Rimini, has lately taken to opening and shutting her eyes and weeping, and the Pope has ordered that fact to be recorded.

Verdi is writing a new opera.

General Rumigny, formerly aid to Louis
Phillippe, has been cited to appear in the
English Court of Bankruptcy.

Louis Napoleon finds it impossible to live under \$600,000 per annum. We remember the time when he had nothing but Ham, and got on better then than he does

Sijk sacks are now worn by gentlemen

A Modile. Vandermarsch has opened a strange exhibition in Baker street, London, —of "learned birde." The company present choose cards—put private marks upon sovereigns—whisper words to one another, sovereigns—whisper words to one another, and the like, when the birds in question, at the command of their mistress, hop out of the golden cages in which they are placed and select the elucidations from a tray of tablets, with the smetness of wisards. The birds are chiefly Canaries. DIED

Nothing Extraordinary.

One amongst hundreds of the same sort,
Da. Hows—Dear Sir: Allow me to say a Dn. Howz—Dear Sir: Allow me to say a few words in reference to your preparation of shaker Sarseparilla. I have for the last two years been afflicted with sore eyes. I had tried every preparation of the so-called Sarseparilla, without the least effect whatever, until I was advised by a friend to try Dr. Howes' preparation. He said he had examined your recipe and knew for a certainty that you used the Honduras Sarseparilla. Having confidence in my Giand, I thought I would try it. I have used and knew for a certainty that you used the Henduras Saraaparilla. Having confidence in my friend, I thought I would try it. I have used in all, at this time three bettles, and you would be astonished at the sight. My eyes are nearly well; my whole system invigorated, and in fact I feel like another man. So great is the change for the better, that I have no heaitation in saying that I most cheerfully would recommend your Shaker Sarsaparilla as above all others. If you think proper to publish this, you can do so, for I am willing to satisfy any person of the truth of the above. son of the truth of the above-

HAMILTON POTTER. The above is one amongst hundreds we can show our friends if they will take the trouble to call on us at No I College Hall. It is also war ranted to be far superior, for FEMALE COMPLAINTS to any other preparation of the kind now before the public. It is also a sure remedy for all diseases arising from an impure state of the blood

R. HAMILTON. Hanging Rock, June 10, 1850—IIu.

To School Examiners and Directors.

THAT it is desirable and highly important that uniformity should be observed in the use of school books, all teachers and parents will testify. And in order to promote this object, we propose introducing in all the public and private schools in this region, the

Eclectic Educational Series.

Eclectic Educational Series, comprising a prime, spaller, six readers, three arithmetic's and keys, and two Algebras, also Pinneo's Istand 2d part grammars. After a lapse of several years, during which the books have been thoroughly and practically tested, they have gone through a careful and entire revision, embodying as far as possible all that experience could suggest, or talant accomplish.

They are now presented to the public, based on the following considerations: Ist. They are better than any other now in use. 2d. They are chasper than any others. 3rd. They are entirely a western book. For the benefit of those who have not had an opportunity of examining those books, we would say, that a pamphlet containing a minute analysis of all their leading characteristics with certificates and opinions of teachers and others throughout the United States, may be had on application at our store. And any persons wishing to examine the books, will be furnished with a set of the series by sending their address.

In order to facilitate this arrangement, we prepose to take the old books for the purpose of introduction at half price, thereby obviating the great objection that has heretofore been made to these changes by the increased expense which under any other arrangements must be necessarily incurred.

Brandeths Pills.

Among the many evidences, of a character undo thted, some of which have been made publie, showing the wonderful efficacy of my pills in cholera, the following is worthy of the serious consideration of all who yet remain sceptical. I am confident that if the pills are taken in the early stage of the disease, or what is better, if the bowels are thoroughly evacuated by them repeatedly during the prevalence of the predisposing cause of cholers among us, that but few cases would occur, and of those that did not one per cent. would die.

Cholera. IMPORTANT CORRESPONDENCE OF THE NEW YORK

Dreadful ravages of the cholors among overland Emigrants to California----Suffering and sickness----Brandeth's Pills in cholora-----Re-

turn of Emigrants to St. Louis-Sr. Louis June 6th, 1849. MESSES BEACH : I left New York city on the 15th March last, as one of a company of forty eight persons, to rendezvous at Independence, Mo. and proceeded thence to California. We Mo. and proceeded thence to California. We were fortunate in making our arrangements at Independence, and left there in good health and spirits on the 19th April. Two other companies, one from N. Hampshire an the other from Western New York, left at the same time, we journeyed on in company for the first six days; after that we left them behind, as they had ox teams, which are bad travelers.

The second week out we were alarmed at the appearance of the cholera, as one of our number was suddenly taken with vomiting,&c. &c., and such was the absence of mind; or fright, that before anything was done for him

fright, that before anything was done for him he was in convulsions, and died in a few hours after the first attack. The next day another was taken and one of our number, had laid in some of Brandeth's Pills on speculation, gave the patient a dose of nine pills, and in thirty minutes after five more, and he was saved..... By this time the two other companies came up and joined us, and now the cholera made its apand joined us, and now the cholera made its appearance in earnest. The first day there were five taken, the next seven, and the third thirteen, and soon we had a hospital in the wilderness, and our only physician a cabinet-maker with Brandeths Pills; and strange as it may appear, we only lost two others beside the first one taken and they took no less, than 33 of Brandeth's Pills, I concluded to return home and two more of our company sold out with me and two more of our steps to this place, companies that passed as lost many of their numbers especially where spirits and brandy were used and laudanum administered. All our men took was pills and some crust tea, I saw no less than 9 of a company buried in one grave. The suffering of the men on the plains is awful,

Since I have been here, 8 more of our company have returned here, and among them Sav-

pany have returned here, and among them Savage who had the pills. He sold out his pills to
other companies at \$1 per box; so he has not
lost anything after all. Wee pect that our entire
company will be here this week as we have had
enough of California and Brandeth's pills to last
us for a quarter of a conjury at least us for a quarter of a century at least, Yours truly,

PHILIP D. SCHAPP. R. [As the above letter comes to us with a genuine name attached to it, and as the writer is known to us as a gentleman formerly a resident of New York, we would be acting unjustly did we deny its publication. This, however, we would have done had the letter not come, as it did, directly to ourselves as a matter of simple correspondence from a source we could not ex-pect of any sinister motive. We would, in ordipect of any sinister motive. We would, in ordinary circumstances, he slow to publish correspondence containing aught either to the injury or aggrandisement of any party. Dr. Brandreth's pills are well knowns a most excellent medicine but we must confess that we have hitherto been rather incredulious as to the propriety of their use in cases of cholera. But this letter speaks for itself, and we publish it as a matter of duty, and without Dr. Brandreth being aware of its existence.—Ens Sun.]
